

Lake Morey Ice Skating Trail - Fairlee, Vermont

Uses: Ice-skating, snowshoeing, and skiing
Ownership: Parking access is owned and managed by the Vermont Department of Fish and Wildlife, and the ice trail is managed and maintained by the Upper Valley Trails Alliance.
Distance: May be approximately two miles in length, varies with the season

Directions

From I-91 take exit 15 in Fairlee. Off the ramp: turn west and take Lake Morey Rd West. Follow Lake Morey Rd along the western side of Lake Morey for 1.5 miles, and the Vermont Department of Fish and Wildlife Access Area will be on the right.

Description

The Lake Morey Ice Skating Trail is the longest ice trail in the United States, when ice conditions permit its full operation. Crossing the entire lake from north to south, or some winters circling the lake's perimeter, the trail offers panoramic views and the chance to spot a bald eagle. The Ice Skating Trail is the site of an annual Winter Fest in January, weather and ice conditions permitting. Please check the Upper Valley Trails Alliance web site for Winter Fest updates near the end of the year at www.uvtrails.org.

Nordic ice skates may be rented from Nordic Skater in Norwich, VT (www.nordicskater.com) or Dartmouth Cross Country Ski Club in Hanover, NH (www.dartmouth.edu/~doc/dxc/).

A report of the current ice and skating conditions may be viewed at Nordic Skater's web site (www.nordicskater.com/icerep.html).

Please Note: We cannot guarantee the accuracy of any reports published at this or any other site. We do not guarantee the safety of the ice. It is your responsibility to test the ice each time before you go skating on it. Use of the ice trail is not sanctioned by any organization at any time other than the Lake Morey Winter Weekend events.
