

## Quechee Green Trail

### 0.6 mile loop

#### Easy

This easily accessed walk through the Quechee Green Park travels in a flat loop around a large field, and has scenic views of the mountains. The trail is made of small stones and is wide and obvious, starting just to the left of the playground near a sign reading “Quechee Green Park”. The route is simple, and the terrain includes just one small hill. There are many nice benches that you can rest on, and the beautiful Ottauquechee River borders one side of the park. Because the trail is out in the open, sunscreen is definitely recommended on clear summer days. The trail and the park are open from dawn until 9:00 p.m.

**Directions:** From Dewey’s Mills Pond (see previous page), continue on Quechee Main Street past the Quechee Inn about 9 miles into the village. Turn left onto Village Green Circle at the sign for Village Green Deli.. Then bear right on the circle and park just past the deli and the Quechee Post Office.

**Parking:** Public parking is available directly in front of the park at the end of Village Green Circle.

**Uses:** Trail is open to foot traffic. Pets are welcome but must be kept under control at all times, and must be cleaned up after.

**Ownership/Maintenance:** The Quechee Green Park land is owned by the Quechee Lakes landowners’ Association. The maintenance and scheduling for the area is preformed cooperatively by the Hartford Parks & Recreation Department.
